

# Navya Bhargavi Kandikonda

[kandikondanavyabhargavi@gmail.com](mailto:kandikondanavyabhargavi@gmail.com) | +91-7893719890 | [LinkedIn](#) | [GitHub](#)

## Objective

---

Computer Science undergraduate with strong foundations in Python and Machine Learning, focused on problem-solving and building practical, scalable software solutions.

## Education

---

### Integrated B.Tech in Computer Science and Engineering (6-Years)

2022 – 2028

Rajiv Gandhi University of Knowledge and Technologies, Ongole

CGPA: 9.3

## Skills

---

**Programming Languages:** Python, C, JavaScript

**Web Development:** HTML, CSS, JavaScript, React.js

**Machine Learning:** Regression, Classification, Model Evaluation

**Libraries:** Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn

**Tools:** Jupyter Notebook, Google Colab, Streamlit

**Version Control:** Git, GitHub

**Concepts:** Object-Oriented Programming (OOP), Data Structures

**Soft Skills:** Problem Solving, Teamwork, Communication, Time Management

## Projects

---

### Portfolio Website | HTML, CSS, JavaScript, React.js

[Live](#)

- Designed and developed a responsive personal portfolio website to showcase projects, skills, and GitHub work.

### Weather Forecast App | Python, Streamlit

[Live](#)

- Built and deployed a weather forecasting application using Streamlit that displays real-time weather data from public APIs.

### Movie Recommendation System | Python, Machine Learning, Streamlit

[Live](#)

- Developed and deployed a movie recommendation system using machine learning techniques with an interactive Streamlit interface.

### Calculator Web App | HTML, CSS, JavaScript

[Live](#)

- Developed a responsive calculator web application with clean UI and interactive functionality.

### Spotify Song Popularity Prediction | Python, Machine Learning

[GitHub](#)

- Built a machine learning model to predict song popularity using audio features such as danceability, tempo, and energy.

### Diabetes Prediction | Python, Logistic Regression

[GitHub](#)

- Developed a classification model to predict diabetes risk using Logistic Regression and evaluated model performance.

## Certifications & Achievements

---

**Certifications:** Wipro AI/ML Internship, Great Learning Python Programming, Masterclass in Machine Learning

**Achievements:** Cleared Round 1 of Adobe Hackathon, Participated in internal college hackathons and technical events, Built a professional LinkedIn network of 2500+ connections
